Improving the Lifestyles of inland Queensland

Protection from the Sun
whilst catching the breeze

Imagine a summers afternoon relaxing on your shaded veranda watching the children play in the garden. The scent from the flowers twining up a lattice trellis, is carried to you on the breeze whilst you enjoy a drink with friends..!!!!

With our custom made Lattice and just a little imagination you can create just such a scene. Lattice is a versatile, decorative and affordable product for outdoor recreation areas, verandas, garden trellises, fences and children's play areas . Reduce the harshness of the climate we live in without losing your view or the breeze.

Privacy and security

Two things that are precious in today's world.

With Lattice you can achieve both with out making your home look like a prison. With a range of patterns to choose from you can fence and screen an area in a way that is pleasing to the eye, yet give you the level of privacy you want.

Durable, long- lasting, easy to install

Our lattice panels are made from CCA treated pine using galvanized nails. We understand the climate of inland Queensland because that is where we live and work. We manufacture our lattice with our climate in mind. When correctly installed our panels will not rot or rust and painting will add years to the life of the Lattice.

We custom make panels to the sizes you provide so installation by the DIY homeowner is easy

- Entrance ways
- Decks
- Fences & Gates
- Garden areas
- Entertainment areas
- Room Dividers
- Trellises
- Carports walls
